

Bayer Cropscience

Bayer Cropscience LCC & Internal Works

CLIENT:	Bayer Cropscience
LOCATION:	Pinkenba, QLD
PROJECT VALUE:	\$1,131,400.00
CONTRACT PERIOD:	8 WEEKS
COMPLETION DATE:	December 2020

PROJECT DESCRIPTION

Underground Power were contracted by Bayer Cropscience, located in Pinkenba, to Design and Install Enerx LCC works, as well as design and install a Power Distribution Upgrade inside the main buildings.

Our scope of works included all excavation and installation of Enerx Conduits, Enerx Padmount Transformer, Enerx Overhead Works, HV and LV cabling, Terminations, a new Site MSB Room, as well as External MSB Rooms, Site Power Monitoring and Mains Switch Motorization. Additional works included the raising and replacement of public footpaths, new fencing around transformers, excavation and disposal of hedges, cutting and disposal of concrete.

Underground Power is proud to be part of this major upgrade for Bayer Cropscience. Underground Power finished this project in the correct time frame and to budget.
